

Lean Six-Sigma Solutions & Training

Improving People, Businesses & Societies

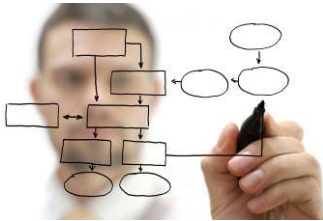

Government Funding Now Available for Lean Six-Sigma Business Improvements!

How is the government helping businesses?

Vative can implement Lean Six-Sigma business improvements in most cases **at no cost to the company!**

Vative have access to a range of government funded grants:

- ✓ **Nationally accredited training** in Certificate III, Certificate IV & Diploma in all industry sectors
- ✓ **Internationally Certified Training** (Lean & Six-Sigma)
- ✓ Tax Concessions
- ✓ Specific Federal and State funding for business improvement projects in all industries

Vative Skills, Tools & Training + **Government Funding** = **Increased Knowledge & Business Profit**

Whether your business is new to Lean Six-Sigma or has already begun the journey, Vative can **tailor a solution** that will ensure your business makes positive changes to improve your business profitability, product/service quality and team morale. By educating your teams with **structured and proven techniques**, Vative raises the level of employee skills in alignment with business goals and objectives.

What is Lean Six-Sigma?

Lean/Six-Sigma are business optimisation systems that have been used by successful Japanese, American and German companies such as **Toyota, Motorola and Bosch**. Lean systems educate people about process efficiency and instil a culture in the work place that drives towards an overall growth strategy in flexibility, perfect quality, transparency, standardisation, empowering teams and continuous improvement. This helps your business become efficient by **reducing wasted effort** and **focusing on Value Added** operations.

Who are Vative?

Vative are a dynamic team of Lean/Six-Sigma Experts with proven and long term international Lean experience in Manufacturing, Transport & Logistics, Warehousing, Mining, Administration, Finance, Services, Healthcare and IT Communications. We focus on strategic alignment to business management and leadership, quality, change management, continuous improvement and training.

Why do Vative lead the way as a benchmark organisation?

Vative lead the way in Lean training and project management. Why? Vative work with your staff to implement projects aligned with business goals and team capabilities as part of the structured training package. Our hands-on experience in process engineering and leadership, plus certified trainers experience, allow us to make the change successful.

Vative guarantee:

- ✓ Return on investments (ROI)
- ✓ Key Performance Indicator (KPI) tracking
- ✓ Improved team skills and knowledge
- ✓ Process efficiency increases
- ✓ Implementation of improvement projects
- ✓ Improved team culture and morale
- ✓ Tangible visible and invisible change
- ✓ Alignment between process and people change management
